

# The first car:

## Who invented the Car?

The first stationary gasoline engine developed by **Carl Benz** was a one-cylinder two-stroke unit which ran for the first time on New Year's Eve 1879. Benz had so much success with this engine that he was able to devote more time to his dream of creating a lightweight car powered by a gas engine, in which the chassis and engine formed a single unit.

## About Carl Benz:

- Born in November 25, 1844
- Died in April 4, 1929
- Children: Clara Benz, Richard Benz, Eugen Benz, Ellen Benz, Thilde Benz
